How to Use This Resource

This resource can be used with multiple grades. You may have to adjust the writing activities. If your child or student is an early writer, have them dictate their responses to you or have them record key words that they are able to write. They can even draw what they learned.

Copyright Information and Terms of Use

All material contained in this document are copyright of TheHomeschoolScientist.com. You may use this for your single-family homeschool or for a single classroom. Sharing this document with another family, classroom teacher, or administrator is breaking the copyright on this material. Our materials are very reasonably priced so we can bring quality learning experiences to children. Help us by following proper copyright etiquette. We want to continue coming alongside your teaching!

Copying parts of this resource to create another resource is prohibited. You may make photocopies to use with your single classroom or your single homeschool. Placing this file or any part of it on the internet, a forum, a school website, a classroom website, any social media platform, online storage such as Google Drive, Dropbox, or any other type of storage site is prohibited. This resource may not be sold by any entity other than TheHomeschoolScientist.com.

Youngest Version

Have your children fill in their responses to the prompts. Younger students or those with learning differences can dictate their responses to you or draw their responses. Allow time for students to color the page.

Color the firecracker to look like a rocket.

Draw 2 things you want to study.

Draw 2 insects on the hat.

Draw the animal you want to learn about.

Draw yourself as a scientist.

Draw 2 things you see in nature.

Draw or write 3 of your favorite animals.

HAPPY NEW YEAR!

Older Elementary

Have your children fill in their responses to the prompts. Younger students or those with learning differences can dictate their responses to you or draw their responses. Allow time for students to color the page.

One place on Earth or in space you want to learn about in 2026.

What science activity in 2025 did you like the best?

List 4 things you'd like to look at under a microscope?

Six science words you have learned.

Write two fun facts about a favorite animal.

What 2 science topics do you like best?

3 inventions you couldn't live without?

HAPPY NEW YEAR!

5th and up

Have your children fill in their responses to the prompts. You may want to set some parameters to inspire creativity. For example, when asked to list inventions a student can't live without, ask them to list ones besides gaming platforms and phones. 😊 Allow time for students to color the page.

One place on Earth or in space you want to learn about in 2026.

What science activity in 2025 did you like the best?

List 4 things you'd like to look at under a microscope?

Six science words you have learned.

Two questions you'd like to ask a scientist.

2 inventions that help people with physical disabilities (that is not a wheelchair.)

3 inventions (besides a phone) you couldn't live without?

HAPPY NEW YEAR!

Blank Version

Fill in your own prompts.

HAPPY NEW YEAR!
